

Dear Friends of S.R. Snodgrass:

It's hard to believe we have reached this incredible milestone—our 80<sup>th</sup> year in continuous operation. What began as a modest operation in an upstairs office in Beaver Falls, PA, has grown to become one of the country's largest 300 independent public accounting and consulting firms—and we're still growing, committed to creating value, developing impactful relationships, and elevating our people and clients.

It's been a journey full of ups, downs, and amazing achievements, *but always a team effort*. Perhaps most importantly, we've been able to retain our unique culture. Our team members take pride in being not only the best in their field, but also friendly and easy to work with. It's a testament to our true "work/life balance philosophy" that consistently delivers the highest quality work for every client.

Yet, there's so much more to what we do than numbers, more than technology. Our continued growth is about being **"all in," every day**, for all who represent the best of what has made us successful over all these years.

While we reflect on our 80th Anniversary with pride and gratitude, we are excited to embrace an even brighter future—for our clients and the communities we serve. Speaking for all of us, **thank you** for your continued loyalty and trust.

**With gratitude,**

**Chuck**
